

GABRIEL RAMOS

Full Stack Developer

Ottawa
gab.ramos0902@gmail.com

Experienced and versatile web developer with a strong foundation in both front-end and back-end technologies. Skilled in modern JavaScript frameworks like React, Angular, and Next.js, with significant expertise in building full-stack applications using Node.js, Express, and various backend technologies. Passionate about creating seamless user experiences while maintaining high performance and scalability in web applications. Proven ability to work with cloud platforms like AWS, GCP, and serverless technologies.

PROFESSIONAL EXPERIENCE

● FRONT-END DEVELOPER

Amazon | March 2023 - Present

- Led the development of [specific project or feature], using React, Redux, and Next.js to enhance user experience and performance.
- Designed and implemented reusable React components, improving the speed and scalability of the application.
- Collaborated with back-end teams to integrate REST APIs and GraphQL with the front-end for seamless data flow.
- Implemented cloud solutions on AWS/GCP, optimizing application deployment and scaling using serverless functions.

● BACK-END DEVELOPER

salesforce, San Francisco, California | June 2020 - February 2023

- Developed and maintained several dynamic, single-page applications using Angular, Vue.js, and TypeScript.
- Utilized Firebase and MongoDB for efficient real-time data storage and user authentication.
- Worked with DevOps teams to streamline deployment pipelines using Heroku, Netlify, and Vercel.
- Optimized application performance using tools like Webpack and Babel for improved bundle size and load times.

EDUCATION

● BACHELOR'S DEGREE IN COMPUTER SCIENCE

Centennial College, Toronto, Canada | September 2015 - August 2018

KEY SKILLS

- Frontend: Languages/Frameworks: React, Angular, TypeScript, JavaScript, React Native, Next.js, Redux, Remix, Vue.js
- Styling & UI Libraries: HTML5, CSS3, CSS-in-JS, CSS Modules, Styled Components, Bootstrap, Material UI, Figma
- State Management & Data Fetching: React Query, Redux, Apollo, REST APIs, GraphQL
- Build Tools: Webpack, Babel, JSX, SPAs
- Backend: Languages/Frameworks: Node.js, Express.js, Nest.js, Python, Ruby on Rails, PHP, Laravel
- Database: SQL, MySQL, PostgreSQL, MongoDB, NoSQL, Firebase, Redis
- Cloud & Deployment: AWS, Google Cloud Platform (GCP), Heroku, Netlify, Vercel
- Architecture: Microservices, Serverless Functions, Apollo GraphQL, REST APIs
